

he heard from Baron von Driesen, Governor of Mittau, that he had actually departed. Having now stated the truth on this point I have to correct another error, if indeed it be only an error, into which some writers have fallen. It has been falsely alleged that the King left Mittau for the purpose of fomenting fresh troubles in France. The friends of Louis XVIII., who advised him to leave Mittau, had great hopes from the last war. They cherished still greater hopes from the new wars which Bonaparte's ambition could not fail to excite, but they were not so ill-informed respecting the internal condition of France as to expect that disturbances would arise there, or even to believe in the possibility of fomenting them. *The pear was not yet ripe* for Louis XVIII.

On the 29th of November the contents of a letter which had arrived from London by way of Sweden were communicated to me. This letter was dated the 3d of November, and contained some particulars respecting the Comte de Lille's arrival in England. That Prince had arrived at Yarmouth on the 31st of October, 1807, and it was stated that the King was obliged to wait some time in the port until certain difficulties respecting his landing and the continuance of his journey should be removed. It moreover appeared from this letter that the King of England thought proper to refuse the Comte de Lille permission to go to London or its neighborhood. The palace of Holyrood in Edinburgh was assigned as his place of residence; and Mr. Boss, secretary to Mr. Canning, conveyed the determination of the King of England to Louis XVIII. at Yarmouth.

The precaution of the English Ministry in not permitting the refugee King to go near London appeared to me remarkable, considering the relative position of the Governments of France and England, and I regarded it as a corroboration of what the Prince Wittgenstein had told me respecting Mr. Canning's inclination for an amicable arrangement. But the moment was approaching when the affairs of Spain were to raise an invincible obstacle to peace, to complicate more than ever the interests of the powers of Europe, and open to Napoleon that vast career of ambition which proved his ruin.
